TV8964

SDHC card 32 GB

The SDHC is an SecureDigital memory card (SD 2.0). With a storage capacity of 32 GB and a read–write speed of 4 MB/sec, the memory card is ideally suited for saving data in your mobile mini digital recorder. However, it is also possible to use it in mobile telephones and photographic cameras. The memory card is compatible with SDHC–capable
devices.
